

# Samsung Series 5 Ultrabook Fan Replacement

This guide will show the user how to replace the computer's fan. The fan is responsible for making sure the device does not overheat.

Written By: Timothy

## INTRODUCTION

This is a simple replacement guide for the computer's fan.

### TOOLS:

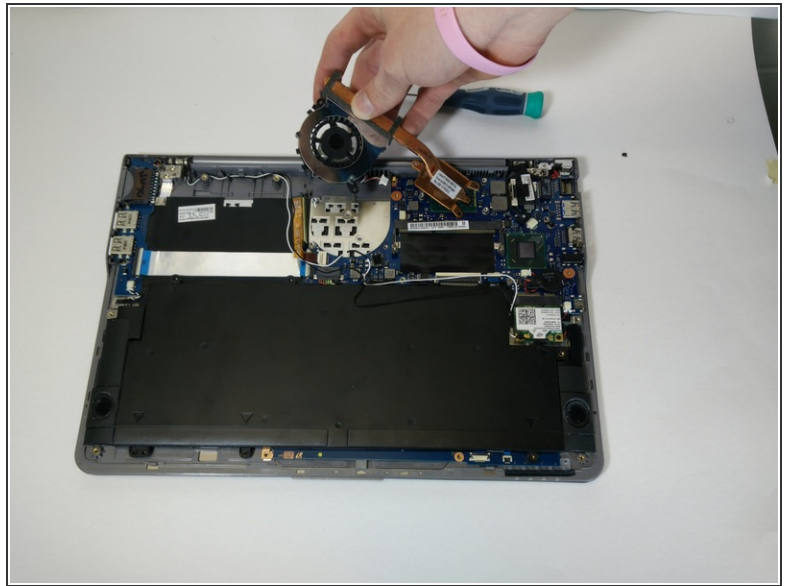

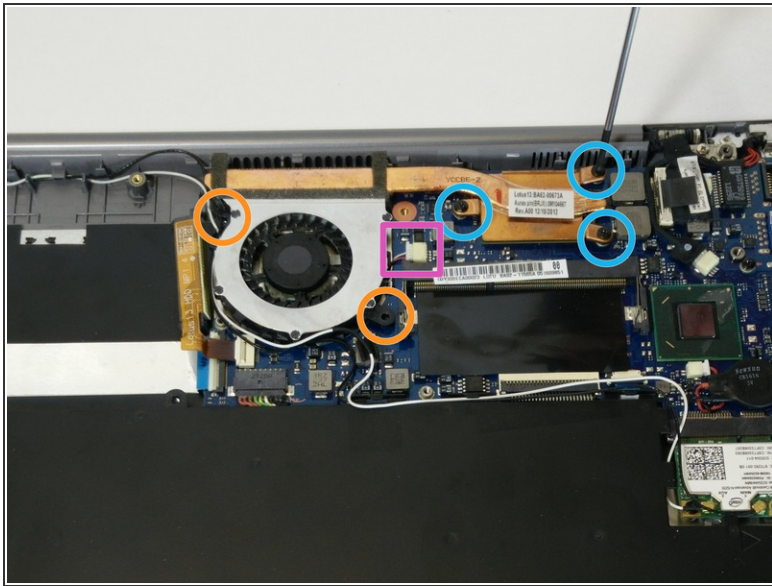

- [Phillips #00 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)

### PARTS:

- [New Laptop Fan](#) (1)
-

## Step 1 — Take Out the Fan

- Unscrew the three 2.4 mm screws holding the heat sink in place.
  - Unscrew the two 4.7 mm screws near the fan.
  - Unplug the fan from its power supply.
- i** Removal of the heat sink is not necessary. The fan parts from the sink with ease.

To reassemble your device, follow these instructions in reverse order.
